

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Rebecca Schewe
DOCKET NO.: 06-28934.001-R-1
PARCEL NO.: 14-33-303-050-0000
TOWNSHIP: North Chicago

The parties of record before the Property Tax Appeal Board are Rebecca Schewe, the appellant, by attorney Joanne P. Elliott of Elliott and Associates Attorneys, P.C., Des Plaines, Illinois; and the Cook County Board of Review.

The subject property is a 126-year old, three-story style dwelling of frame construction containing 2,239 square feet of living area with a full, unfinished basement, central air conditioning, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted for consideration four comparable properties described as two-story frame or masonry dwellings that range in age from 118 to 130 years old. All of the comparables have been assigned the same neighborhood code as the subject property. Three of the comparables have full, unfinished basements, and one has a full, finished basement. Two comparables have one or two fireplaces, central air conditioning, and garages. The comparables contain from 2,244 to 2,658 square feet of living area and have improvement assessments ranging from \$24.47 to \$31.88 per square foot. The subject's improvement assessment is \$39.43 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story or three-story frame or masonry dwellings that range in age from 69 to 123 years old. One of the comparables is located in the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	18,629
IMPR.:	\$	88,273
TOTAL:	\$	106,902

Subject only to the State multiplier as applicable.

same block as the subject property, and the other three, based on their parcel index numbers, are located in the same general area as the subject. Two comparables have full, finished basements, and two have full, unfinished basements. Each comparable has central air conditioning; three have one or three fireplaces; and two have garages. The dwellings contain from 2,234 to 2,929 square feet of living area and have improvement assessments ranging from \$39.34 to \$41.24 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The comparables numbered one and four by the appellant differed from the subject in design, exterior construction, and physical features, and received reduced weight in the Board's analysis. The comparable numbered three by the board of review differed substantially in age from the subject, and the comparables numbered two and four differed significantly in size and physical features. As a result, these comparables also received reduced weight in the Board's analysis. The Board finds that, despite some differences, the comparables numbered two and three by the appellant and the comparable numbered one by the board of review were the most similar to the subject in age, location, design, exterior construction, size, foundation, and physical features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$27.25 to \$39.34 per square foot of living area. The subject's improvement assessment of \$39.43 per square foot of living area falls slightly above this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
